sale bd CUNNINGHAM,  
Sign of the "Big Mortar." nov 30

# THE DAILY SENTINEL.

V. L. MACARTHUR & D. M. KEELER, EDITORS.

Tuesday Morning, December 10.

## Our Reception.

To say that we were not flattered and gratified with the warm reception which our DAILY SENTINEL met with yesterday at the hands of our citizens, would be, like the crime of Ananias, to keep back part of the price. With two or three exceptions, those to whom our paper was sent have subscribed for it, and have taken part in its success and prosperity, for which we are doubly thankful. Our business men cannot but feel that a daily paper, printed in their midst, and laboring to advance and promote their interests, will be a valuable auxiliary in increasing and extending their circle of operations. The rapidly increasing importance of Milwaukee, approximating as it is to the consequence of a large city, makes it imperative that our newspapers keep up with the progress of business and enterprise around us. Our business men, realizing this truth as a general thing, have been liberal in sending in their subscriptions. Should they continue hereafter to take an interest in the success of our undertaking, they may rest assured that we will furnish them with such a paper as will be a credit and ornament to our young city, and a source of pleasure, profit and advantage to them. To prevent any wrong impressions which may be insidiously created to our disadvantage, we beg leave to assure the public that we perfected such arrangements, previous to commencing the Daily Sentinel, as will enable us, under any circumstances, to ensure its regular appearance every week-day, for one year. The Sentinel establishment is now upon a healthy basis. It is our intention, if industry, economy, perseverance and means can accomplish anything, to have the duties of all the departments of the office discharged with promptness and fidelity to the public.

There should be no doubt of the ability existing in Milwaukee to support a daily paper—Chicago, with not more than 1000 more inhabitants than Milwaukee, supports two daily papers, besides several published weekly. To make us as successful as heart could wish, it is only necessary that we have your good will—and this we confidently expect.

Our facilities for obtaining the earliest information are unsurpassed. It is our intention, as soon as possible, to secure correspondents from Eastern cities, who will give us the particulars of all the doings in their vicinity. Should any of our friends at home feel disposed to contribute occasionally to our columns, we shall be happy to insert their communications.

The Rochester Advertiser, a strong locofoco paper, estimates that there were some fifteen or eighteen thousand foreigners naturalized in New York immediately preceding the election. Nearly all of this number voted the locofoco ticket, and they were all naturalized for the express purpose of giving the state to Polk, which they have done. This is no new instance in which foreigners are naturalized to carry a particular election. This has been the case all over the Union. Whenever the locofoco party has found itself in the minority, in any particular location, it has immediately set itself to work to supply its ranks with recruits, by naturalizing foreigners enough to give it the majority. In many instances foreigners have been naturalized illegally and judges been bribed to practice fraud that locofocoism might triumph. The example of locofocos in Cincinnati, at which place 1200 foreigners were naturalized on the morning and day preceding the election, and voted for Polk, furnishes but one example, among a countless number, where foreigners have been naturalized by the hundreds to effect a particular election. We submit it to the candor of all whether such things can exist, and not "excite our special wonder."

## Our Advertising Patrons.

Will please hand in their advertisements by three o'clock, P. M. on the day preceding their publication. Their favors will be promptly attended to.

**THANKSGIVING.**—There will be religious service performed at the Congregational Church in this city, on Thursday, at 11 o'clock, A. M. at which time a sermon will be delivered by the Rev. Mr. Myren, appropriate to the occasion; and which, as we are informed will embrace a view of the moral and political condition of our country.

**Amos Kendall's Expositor is dead**—verdict, died of starvation! We believe the real cause of its death was that it could find no new subject to live and prophesy upon, and so it died of ennui. Who is to be Grand Seer and Astrologer of Polkocracy now?

A down-east editor boasts that he kissed forty Dutch girls in one evening without shedding a tear! That same chap could wash his eyes in onion-juice without having a lachrymose voyage!

A span of horses, attached to a wagon, the property of Mr. Coffee, ran away yesterday morning, and in their flight attempted to cross the Canal, in Kilbournstown, when they both fell through the ice and were drowned.

We are among the number who believe that it is possible to conduct a paper without descending to low scurrility or personal invective and we shall therefore, in our communications with the public endeavor to preserve that degree of dignity and candor, which will ensure respect for our opinions. We seek rather to advance and discuss principles, than to enquire into the vices, errors, or qualities of individuals. This field is certainly broad enough for our labors, without looking into the calendars of Billingsgate, for choice epithets to fling at our neighbors. If an intruding individual comes in our way, we feel like saying to him, as uncle Toby did to the fly, "you are rather small, you've injured us, but, little insect, go on your way rejoicing—the world is wide enough for us both." We sometimes meet with queer customers on the road of life, and among those who are most despicable, is the one who would rob you of character, as the vulture preys upon the lamb. Toward such the Indian's motto—"the least said, the soonest found out"—is the best rule of action.

We see it stated in one of our exchange papers that the Hon. CHAS. M. RAGO, of Erie, has closed a contract with Messrs. Bidwell and Santa, of Buffalo, for a steamer of 1000 tons burthen, to be ready for commission by the first of August, next year. The West is indebted to the enterprise, in steamboat building, of Mr. Reed for much of its prosperity and greatness. His recent defeat for Member of Congress is regretted by men of all parties.

The recent annual message of Governor SPROLL, of New Hampshire occupied but a quarter of a column in the newspapers. Worthy of being imitated.

The capital invested in manufactures in the town of Lowell amounts to over \$11,000,000! How great a proportion of this capital, must become comparatively worthless by the passage of Free Trade laws? And how many hundreds who labored in these manufactories will be thrown out of employment?

After all the bragging about New Hampshire's being so thoroughly locofoco, Polk did not receive so many votes as the gallows—the latter receiving 9,881, the former falling about 1,000 short of this number. It is fitting that a state which gives Polk so large a majority, should still adhere to Capital Punishment.

ELLI B. Williams has been appointed Register of the Land Office at Chicago, vice John H. Kinzie, Esq., removed. Cause of removal—voted for Clay at last election.

Never omit says Wilberforce, an opportunity of becoming acquainted with any good or useful man. Never neglect to take a good paper, if there is one in your vicinity, say we.

The store of Frederick Hollister of Utica, N. Y., with all its contents was recently destroyed by fire. The goods were insured to the amount of \$37,500, which it is thought will cover the loss.

The Washington correspondent of the New York Journal of Commerce, good authority at least for any Tyler movements, has the following speculation on this point:—

From the correspondence of the Jour. of Commerce.

WASHINGTON, Nov. 19th. We have reason to believe that President Tyler will urge the immediate annexation of Texas, in his Message to Congress, at the coming session. He has, I learn, strong hopes of carrying the project into execution during the short remaining portion of his administration. The project will be renewed under great advantages. In the first place, it may be claimed that the question was fairly submitted to the people by the resolutions of the Baltimore Convention, and by Mr. Polk's unequivocal pledges, and that the people and a majority of the States have decided in favor of it. Though some Northern Democrats voted for Mr. Polk with a protest against annexation, yet thousands in the South supported Mr. Clay who were thorough-going friends of annexation. In fact, it is the undoubted sense of the people, party politics apart, that Texas should be re-acquired, and become a compact part of the Union.

In what form the project of annexation will next be urged, whether by treaty or by legislative act, is uncertain and immaterial but its chance for consummation, at the ensuing season, is undoubtedly very good.

Still it may fall, and in that case the question will be remitted to the Twenty-ninth Congress, which will more immediately represent the views of the people on this subject. That twenty-ninth Congress it will be the policy of President Polk to call together without delay, for the purpose of submitting to them, separately and seasonably, this great question.

**Joseph Bonaparte.**—The body of Joseph Bonaparte was deposited on the 3d of August, in the Church of Santa Croce at Florence, the temple of honor of the great man of Italy. He is said to have left a fortune of three millions of dollars to his widow and daughter, who is married to her cousin, the Prince de Marignano son of Lucien. The estate at Bordentown, we presume, will fall to his widow. No member of the family now resides upon it, except Lucien Murat, son of the brother-in-law of Napoleon.

**A COPPER MINE.**—A new discovery of copper mineral has been made on Kickapoo, about twelve miles above Prairie du Chien, and six miles from the Mississippi river, which is likely to prove very valuable. We are informed that about 2,000 lbs. are taken out daily—that the lode is proved some distance ahead, and that the mineral increases in quantity as they advance. The ore is said to be 7 per cent, richer than that found near Mineral Point, which averages, we believe, about 15 per cent.

## Hon. Daniel Webster's views on Naturalization.

The following extract is from a recent speech delivered by the Hon. DANIEL WEBSTER in old Faneuil Hall, the cradle of American Liberty. Mr. W.'s views upon all the leading topics of interest are always sought after with avidity. Although not occupying a public station in the councils of the Nation, he nevertheless exerts a powerful moral influence over men in all grades of society—the secret of which is, that his views upon all questions of public interest are exclusively American. Our readers will form their own opinions of his views. His suggestions are at least worthy of reflection and attention:—

Why should two free white states, New York and Pennsylvania, go against us, if they so have done? There can be but one case, and that so conspicuous and prominent that no one can shut his eyes to it, no one but must deplore its effect. Approach the subject at once, for it is needless to try to keep it back. And I say that, in my mind, there is a great necessity for a thorough reformation of the naturalization laws—(Cheers, long and loud continued.) The results of the recent election, in several of the states, have impressed my mind with one strong and deep conviction; that is, there is an imperative necessity for reforming the naturalization laws of the United States. The preservation of the government, and consequently the interest of all parties, in my opinion, clearly and strongly demand this. All are willing and desirous, that the blessings of a free government should be open to the enjoyment of the worthy and industrious from all countries, who may come hither for the purpose of bettering their circumstances, by the successful employment of their own capital, enterprise, or labor. But it is not unreasonable, that the elective franchise should not be exercised by a person of foreign birth, until after such a length of residence among us, as that he may be supposed to have become, in some good measure, acquainted with our constitution and laws, our social institutions, and the general interests of the country; and to have become an American in feeling, principle, and sympathy, as well as by having established his domicile amongst us. Those already naturalized, have, of course, their rights secured; but I can conceive no reasonable objection to a different provision in regard to future cases. It is absolutely necessary, also, in my judgment, to provide new securities against the abominable frauds, the outrageous, flagrant perjuries, which are notoriously perpetrated in all the great cities. There is not the slightest doubt, that in numerous cases, different persons vote in the strength of the same set of naturalization papers; there is as little doubt that immense numbers of such papers are obtained by direct perjury; and that these enormous offences multiply and strengthen themselves beyond all power of punishment and restraint by existing provisions.

I believe it is an unquestionable fact, that masters of vessels having brought over emigrants from Europe, have within thirty days of their arrival, seen these very persons carried up to the polls, and give their votes for the highest offices in the national and state government. Such voters of course exercise no intelligence, and indeed no violation of their own. They can know nothing, either of the questions at issue, or of the candidates proposed. They are mere instruments, used by unprincipled and wicked men, and made competent instruments only by the accumulation of crime upon crime. Now it seems to me impossible, that every honest man, and every good citizen, every true lover of liberty and the constitution, every true friend of the country, would not desire to see an end put to these enormous abuses. I avow it, therefore, as my opinion, that it is the duty of us all to endeavor to bring about an efficient reformation of the naturalization laws of the United States.

I am well aware, gentlemen, that these sentiments may be misrepresented, and probably will be, in order to excite prejudice in the minds of foreign residents. Should such misrepresentation be made or attempted, I must trust my friends to correct it, and expose it. For the sentiments themselves, I am ready to take, myself, the responsibility. And I will only add, that what I have now suggested, is just as important to the rights of foreigners, regularly and fairly naturalized among us, as it is to the rights of native born American citizens.

(The whole assembly here united in giving 26 tremendous cheers.) The present condition of the country imperatively demands this change. The interest, the real welfare of the parties, the honor of the nation, all require that subordinate and different party questions should be made to yield to this great end.—And no man who esteems the prosperity and existence of his country, as of more importance than a fleeting party triumph, will, or can, hesitate to give his adherence to these principles.—[Nine cheers.]

Gentlemen, there is not a solitary doubt that if the election have gone against us, it has been through false and fraudulent votes. Pennsylvania, if, as they say, she has given six thousand for our adversaries, has done so through the basest fraud. Is it not so? And look at New York. In the city there were thrown sixty thousand votes, or one vote to every five inhabitants. There can be no such thing on earth. (Cheers.) And the great remedy is for us to go directly to the source of true popular power, and to purify the elections. [Twenty-six cheers.]

Fellow-citizens, I profess to be a lover of human liberty—especially to be devoted to the grand example of freedom set forth by the republic under which we live. But I profess my heart, my reputation, my price of character to be American.—[Nine cheers.]

Mr. Webster then passed a beautiful reference to the doctrines and examples of Washington, John Adams, Jefferson, Madison and Monroe; and concluded as follows:— Following the principles of these great men, walking in the footsteps of Adams, Washington, Hancock, Jefferson, and others; let us answer to their exhortations, by pledging ourselves that, living or dying, prosperous or unp prosperous, we will show ourselves in our strength, with a glorious unanimity, worthy of such glorious measures.

**OREGON AND THE BRITISH.**—It is stated that Mr. Dunn, Agent for the British Hudson Bay Company, has furnished the Montreal Courier with a statement of the complete occupation of Oregon, *ad interim*, by the directions of that company, as the representatives of the British Nation.—Strange movements, true?

## The State of Iowa.

From the Cincinnati Atlas.

The Convention to form a Constitution for the State of Iowa have closed their labors. The Iowa Standard gives a summary of the provisions of the New Constitution.

The Legislature to consist of 17 Senators and 39 Representatives, biennial, pay for first 60 days \$2 a day, for any longer time \$1 a day.

The Executive, Governor for the term of two years, salary, \$200, to have a veto. Secretary of State 2 years, salary \$500. Treasurer 2 years, salary \$3000. Auditor 2 years, salary 500.—All these to be elected by the people and their salaries not to be increased for ten years.

The Judiciary.—Supreme Court, 3 judges elected by joint ballot of the Legislature, term 4 years, salary \$800.—Prosecuting Attorneys elected by the people for two years.

A Superintendent of Public Instruction, to be appointed by the Legislature. Legislative elections viva voce, and a plurality elects.

Corporations limited to 20 years, unless renewed. Stockholders individually liable, the Legislature to have the right to repeal, but the State to be a stockholder. No Bank to be established unless the charter is submitted to the people and approved by them.

Laws to embrace but one subject, which shall be expressed in the title. Not to be in force until published in the counties. Law to be passed early, to prevent black and mulatto persons from residing in the State.

Lotteries and the sale of Lottery tickets prohibited.

Amendments may be proposed to the Legislature, approved by the second, and then, if adopted by the people, to become a part of the Constitution. Revision by a Convention called by a vote of two-thirds of the Legislature if approved by a popular vote.

**SLAVERY IN AFRICA.**—An English gentleman, who has spent fourteen years in Western Africa, where he has been Governor of some of the most important English possessions, states that probably nine-tenths of all the population of Africa are at this moment slaves; that in some places the slaves are to the free, as thirty to one; that slavery there is of all kinds, from that which gives the master the most absolute control, to that in which the slave has the privileges of a member of the family, and may in some cases, inherit his master's property. He expresses the conviction that slavery can be eradicated there only by the general promulgation of the Gospel.—N. Y. Jour. of Com.

**BROOKLYN.**—The aggregate valuation of the real and personal estate of the city of Brooklyn, as revised by the Board of Supervisors, is as follows: Real estate \$20,267,363; personal—\$3,012,866.—Total, \$23,280,229. The aggregate taxation on this, including city and State tax, is \$160,789,71, about 7 mills on the dollar.

Three men were at the polls in the town of Newbury, at the recent election, and voted for Henry Clay, who voted for Gen. Washington when he was chosen President. They were Benjamin Colman, aged 93; Silas Little, aged 91, and Aaron Rogers, aged 89.

**Keeping Cows in Winter.**—I have had a large number of eggs the past winter, from following in part the advice I have seen in your and other papers. I have kept my fowls in a warm place, have given them as much grain as they wanted, always keeping it where they could get it when wished; having also a box containing gravel, lime and ashes, which they could pick at or roll in, and furnishing them with graves or scraps, which is a substance obtained in large quantities from the Melting Association of this city. Of this substance they are extremely fond, and it made them lay prodigiously. Annual food appears to be so essential to fowls while keeping that I shall never pretend hereafter to keep fowls in the winter without it.

**FRAUDULENT ISSUES OF ILLINOIS STATE SERIP NOTES.**—The Pittsburg Chronicle says Messrs. Sibbet & Jones, of that city, have discovered, within a few days past, that there has been a fraudulent issue of \$100 Illinois State serip notes. These bills, have, undoubtedly, been printed from the original plate, but they may be detected by observing that the paper used is thick and of a yellow cast, and is of that kind called by engravers, proof paper. The paper of the genuine bill is thin and whitish. The filling up and signatures are very well done. The notes are signed J. Hogan on the right, and Wm. Prentiss on the left, payable to H. Fellows or order. The endorsement, however, is not well executed.

**WASHINGTON ON DEPT.**—Gen. Cass to be Secretary of State, Gov. Marcy, the Treasury, Mr. Mason, as he is, or Minister to England, Rouns M. Saunders to the Post Office Department, and Mr. Walker, of Mississippi, to the Bench of the Supreme Court of the United States, or a place in the Cabinet; also that Gen. Cass will be United States Senator from Michigan.

**THE HON. JOHN M. CLAYTON.**—It is now generally believed, says the Wilmington Gazette, that the Hon. John M. Clayton will be sent to the next Senate in place of the Hon. R. H. Bayard.

**SIMPLE CURE FOR THE CROUP.**—We find in the Journal of health the following simple remedy for this dangerous disease. If a child is taken with the croup, instantly apply cold water, ice water if possible, suddenly and freely to the neck and chest with a sponge—the breathing will be almost instantly relieved; as soon as possible let the sufferer drink as much as it can, then wipe it dry, cover it up warm, and soon a quiet slumber will follow.

**Hanging in New Hampshire.**—The question, gallows or no gallows, has been decided in the Granite State, all hollow in favor of the noose. In one of the anti-hanging districts there was a man, who, on being asked his notion of the matter, took time to consider the question, and gravely answered that he was opposed to its abolition until his neighbor Barnes (with whom he had a controversy) was hanged, and then he should be in favor of it.

**POPULATION OF IOWA.**—The vote of this city at the late election was 3500; or 600 greater than the vote in 1843. In 1840 the population of the city was about 20,000. It must now be nearly 25,000, taking the increased vote as a basis of calculation.

We believe it may be safely stated that there is not a house now vacant within the limits of the city.

## The Ladies Circle of Industry

Of St Paul's Church, Milwaukee, will hold their Fair at the building now being finished for a Church, on Thursday Evening next, to which the ladies and gentlemen of Milwaukee and the surrounding country are solicited to attend.

Doors open at 6 o'clock. Ticket's one shilling, to be had at Kuecland and Higby's stores. C. A. ELDRED, Sec'y.

December 7, 1844.

## Public Meeting.

A meeting of the citizens of Milwaukee will be held at the Cottage Inn, on FRIDAY evening next, 13th inst. at 6 o'clock, to concert measures to procure the transmission of a DAILY MAIL between this city and Chicago during the present Winter.

d ec10

MANY CITIZENS.

Nature prepares a remedy for every disease! The most learned physicians, medical men and philosophers, have all agreed that nature has provided a remedy for every disease, when used in time by the afflicted. A little reflection must convince every body of the truth, contained in this remark. The brute creation seems to know it by instinct. When they are afflicted, they eat freely of some particular plant or herb, and are at once relieved. If animals without reflecting can thus alleviate their pains, what could man do, the image of his Creator, and endowed with a portion of his faculties. For sale by **CUNNINGHAM, Apothecary.** Milwaukee, W. T. de 31

**200** LEATHER & FOOLSCAP PAPER, blue white and other colors, laid and vellum, ruled and plain—a lot not excelled in variety or quality in the Territory.

**ANOTHER TROOP IN THE FIELD**—The subscriber would respectfully inform the inhabitants of Milwaukee and vicinity that he as opened a fashionable **TAILORING** establishment on the east side of Water street, a few doors south of Huron, where he intends to carry on the above business in all its various branches, and where he will at all times be found ready to accommodate his friends and customers in cutting and making gentlemen's garments of every description in the latest and most fashionable style, and on the most reasonable terms.

Also ready made clothing of every description, always on hand, which he will sell cheaper for cash than can be purchased at any shop west of Lake Michigan.

Cutting promptly done and warranted to fit. By close application to business in all its branches the subscriber hopes to merit and receive a liberal share of public patronage.

**N. B. Economy is wealth.** The subscriber is prepared for renovating and dressing clothes, such as coats, vests, pantaloons, etc. on an entire new plan from that pursued by others. On examining the articles cleaned by him, they are pronounced by competent judges equal to new. Spots of grease, etc. taken from the cloth and apparel put in complete form. When requested he applies a stiffening, and restores the color to faded seams. He can restore a garment to its original beauty without any injury to the fabric. The steaming process is not made use of.

To all persons disposed to patronize him in his business, he pledges himself, if any of his work is not done to their satisfaction, he will make no charges for his labor. Persons who may please to patronize him can have their clothes returned in a short time. Specimens of his work may be seen at his shop. **HENRY C. TAIT.** Milwaukee, Oct. 23, 1841. 3m6

**WISCONSIN IRON WORKS.** Milwaukee, W. T. The subscribers having removed to this place the extensive assortment of PATTERNS of all descriptions lately belonging to the Eagle Foundry, Rochester, N. Y., and from which nearly all the Castings were made for the celebrated Rochester Flouring Mills, now offer to the inhabitants of the Western country, wanting Castings of any kind, an opportunity of selection rarely to be met with. The patterns comprising this stock have been accumulating at Rochester N. Y. since 1823; consequently a greater variety of Castings can be obtained for ploughing, grist, saw and oil-mill irons, than at any other point in the western country. Also numerous sizes cauldron, sap, potash kettles and coolers; sleigh shoes, plain and fancy fire dogs; sad irons; tailors' and hatters' irons; wagon and cart boxes, plain or ground; brands for millers and inspectors; tobacco cutting machines; hoisting machinery for stores or ware houses; pile drivers, for man or horse power; bark mills and crackers; patent smut mills; pulley sheaves, from 3 to 18 inches diameter; paper mill, coopers' and malt rollers; children's wagon wheels; hand, truck and mallets; sack wheels; door and window caps, light and cheap; hinges for heavy mill and store doors; tinners' and coopers' snikes; swedging snikes and heading snikes; weights, 98, 60, 30, 28, 15, 14, and 7 lbs; feet separators; for door-ways; screw power presses, for pinning or cutting; and casting of every kind usually kept at Foundries. Also ploughs, dirt scrapers, joint harrows, horse rakes, cultivators, thrashing machines, Pitt's threshet, separator and horse power, and farming utensils generally. Parlor, box and cook STOVES, of the most modern construction, all of which are offered on the most liberal terms at wholesale or retail.

Connected with the Foundry is an extensive machine shop and forging establishment, where steam Engines of any calibre, will be built or repaired. Any kind of machinery built to order, and turning and finishing of all kinds done.—Also Hall's patent hand drills, a very useful article for smith's and machinists. Hall's new application of steam power to Saw Mills, whereby one third more lumber can be sawed than in the ordinary manner. Especial attention will be given to steamboat repairs of every description, and the best of stock used. The subscribers expect shortly to be in readiness for casting **LOW-WARE** of every kind. They are also agents for the sale of fire engines and hose, and for burr mill stones, bolting cloths, screen wire &c. Patterns made to order and catalogues of those now on hand furnished gratis on application. Brass and composition casting of all kinds. Orders from abroad promptly attended to. Cash paid for old iron.
